$ 6,426

Our school strategies are on track to meet or exceed our targets

During 2014, we have focused on maximising the benefits of this funding for our students. After reviewing our Great Results Guarantee agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our strategies to ensure that every student succeeds.

Strategies implemented include:
Through purchasing additional teacher FTE 0.1 we have been able to ensure all students achieve NMS in Numeracy and Literacy and furthermore, achieved the schools goals for U2B. We have also boasted significant gains in PM reading levels across the junior years, surpassing our target of 15%.

Our school strategies are showing substantial progress toward our targets

After reviewing the schools Great Results Guarantee agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:
Through the implementation of more rigorous, individualized guided reading lessons we have been able to maintain an improvement rate of 2.5 PM levels/term for over 80% of PM readers. As we continue to refine our whole school reading programs we believe we are well on track to attain our 2015 target of a growth of 30% PM Benchmark by 2016.

We believe the significant improvement is the result of a rigorous whole school curriculum with a particular focus on the improvement of reading and comprehension in the early years. With the additional exposure of 3 hours of Literacy instruction a week, growth is apparent and supported funding shows evidence of increased learning outcomes.
